This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

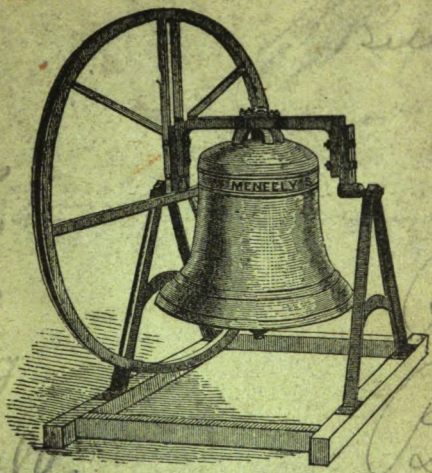
BELLS! BELLS! BELLS!



CARSON.ALB.

The Subscribers manufacture and keep constantly on hand all sizes of

CHURCH, FACTORY, STEAMBOAT, *FERRY, LOCOMOTIVE,* SCHOOLHOUSE, AND PLANTATION

BELLS.

These Bells are hung with the patent iron yokes with movable arms. They can be turned around so that the clapper will strike in a new place, which is desirable after a bell has been rung a few years. Springs are affixed in a new way to prevent the clapper from resting on the Bell, thereby prolonging the sound. These Bells are manufactured from the BEST stock and are cast in iron casings. At this Foundry these were FIRST used and are found to be a great improvement. We give a written warranty that if Church Bells break within one year from date of purchase, with fair usage, we will recast without charge The tone of all Bells is warranted. Nearly 9000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have 15 Gold and Silver Medals, awarded from the various Fairs "for the best Bells for sonorousness and purity of tone." We pay particular attention to getting up Peals or Chimes, and can refer to those furnished by us.

Our Foundry is within a few rods of the Hudson River, Erie Canal, and Railroads running in every direction. As this is the largest Establishment of the kind in the U. S. and has the largest assortment of Bells, orders can be filled with great dispatch. We can refer to Bells in ANY of the States. Old Bells taken in exchange for new ones Levels, Compasses, &c., constantly on hand. Address

BUFFALO GAS COMPANY.

Organized February 26, 1848. Capital $150,000. Increased in 1852 to $250,000.

Officers.—Samuel F. Pratt, President; Oliver G. Steele, Secretary; Samuel F. Pratt, Treasurer.

Directors.—Samuel F. Pratt, Stephen G. Austin, William K. Scott, Oliver G. Steele, Elbridge G. Spaulding, George Coit, William Bucknell, Jr.

The Company was organized in 1848, under the general law authorizing the formation of Gas Light Companies. The works were completed and Gas supplied to the city in November of the same year.

The works are situated on the spacious lot on the north side of Genesee street, between Jackson and Fourth streets, and occupy about two-thirds of the block between said streets and the Wilkeson slip.

In the construction of the works, all the modern improvements are embraced, and they are believed to be unsurpassed by any other similar work in the State, in capacity and economy of working.

The large improvements and extensions of 1852 were made with reference to supplying the entire city with Gas, and the future extensions of Pipe to accomplish this object can be made at comparatively small expense. The quantity now laid is about twenty miles, and the Gasomters are of sufficient capacity to supply the city with a daily consumption of 350,000 cubic feet. The price of Gas was originally fixed at $3,50 per thousand feet, but was reduced in 1851 to $3,00 nett, when promptly paid, which is the price now charged. It is believed to be as low, if not lower than Gas is furnished by any private company in the United States.

The power to furnish Gas cheap, consists in the ability to manufacture it in large quantities, and the greater the consumption, the lower it can be afforded to consumers.

The increased facilities which may be afforded hereafter by the construction of the Pittsburgh Railroad, to obtain coal at cheap rates, together with increased consumption, will enable the Directors to furnish Gas at the lowest prices yet reached by any other company.

Association for the Relief of the Poor.—Organized in the winter of 1849-50. This Society has for its object the suppression of three great evils: indiscriminate alms-giving, professional begging, and the actual wants of the poor. To carry out the plan of the Association, the city has been divided into 57 districts, with a visitor located in each. A map and directory have been prepared, by which an applicant for alms can be directed at once to the visitor within whose district he or she resides, who examines the case, and, if relief is really needed, the visitor gives an order on the Treasurer. The funds of the Association are raised by voluntary subscription; and every annual contributor and every visitor, is a member.

NOYE'S IMPROVED GRIST MILL.

The subscriber is now prepared to furnish, at the Old Buffalo Mill Furnishing Establishment, at the shortest notice, his Centrifugal Feeding, Patent Portable Flouring and Grist Mills, from twenty-four to thirty-six inches in diameter.

The assurances from all to whom these Mills have been sold, more than sustain the most sanguine expectations of their success. The subscriber has in his possession certificates and letters from purchasers, going to show their great superiority over every other description of Mill now in use, either Portable or Large Stones, both on the score of economy, of power, and quantity and quality of work done, in flouring or grist grinding. The amount of work these Mills are capable of performing is truly extraordinary. The certificates in the possession of the subscriber, of Mr. White and Mr. Brown, of the Red Jacket Mills, on the Reservation, near Buffalo, show that the regular work of each of the Mills of this description in that establishment, is from thirty to forty bushels corn per hour; and that one of these Mills, three feet in diameter, ground, the last winter, in three months, 25,000 bushels of corn, without requiring one cent for repairs. Of the Mills sold last year, not one but has given perfect satisfaction in every particular, and performed far beyond my recommendations.

GREAT ENGLISH MEDICINE.

DR. HANNAM'S

BRITISH PILL OF HEALTH.

These truly invaluable Pills are compounded on Medico-Chemical principles, from British Herbs, and the Gums and Balsams of the Eastern clime—

Where shrubs yield balsam, and where flowers and trees
Distil some genial balm for all disease—

and contain the Alterative Extract combined with a choice Aperient, which carries off, by the ordinary evacuations, all foul and unhealthy humors, as they are expelled from the blood by the Vegetable Alterative. They will, therefore, be found to purify the system, and fortify it against attacks of Cholera and other epidemics. They are also specifically useful in all cases where it is needful to act at once on the liver, bowels, kidneys, and skin. Their value is inestimable in dyspepsia accompanied by bile, acidity, heartburn, giddiness, headache, nausea, flatulence, constipation of the bowels, depression of the spirits, and nervous irritability. In many cases they have, by carrying off through natural channels the superabundant humors, arrested the progress of consumption. They are effectual in relieving coughs of all descriptions, are invaluable for the cure of bronchial diseases of the severest form, and are of most important use in influenza. Taken regularly in the spring and fall, they strengthen the tone of the stomach, and soothe, and fortify, and invigorate decaying nature. Their effect on the skin and secretory organs, renders them singularly effective in cases of gout, rheumatism, feverish attacks, &c., &c.; whilst to the nurse and the mother they are one of the greatest blessings ever vouchsafed, as they actively rectify all female obstructions and weaknesses, and yield the most valuable and grateful relief to suffering womanhood, whether in youth or middle age. By opening the pores and acting on the skin, they restore it, when needed, to a healthy state, purify the blood, clear the complexion, remove all eruptions on the face, pimples, heats, and humors of every kind.

BILIOUS COMPLAINTS,

Indigestion, Flatulency, and Affections of the Liver,

may be cured by taking these Celebrated Pills. Symptoms indicative of these disorders are a feeling of nausea, distention, and spasmodic pain in the stomach, sense of oppression and sinking after eating, want of appetite, heartburn, languor, dejection of spirits, and general debility. The removal of the cause of complaint is the most important step, for which purpose have recourse to

DR. HANNAM'S BRITISH PILLS OF HEALTH,

as they possess such cleansing and renovating properties that the action of the liver is speedily corrected, the redundancy of the bile carried off, the stomach strengthened, the spirits revived, and the patient is restored to perfect health. This favorite and universal medicine is sold in Buffalo in boxes at 25 cents each, by

DEMEREST & HOLMAN, MOORE, LIEBETRUT & CO., O. H. P. CHAMPLIN
J. H. COLEMAN, J. W. WILLIAMS & CO., W. LOFT & CO.,

And by all respectable Druggists in the United States. Directions and certificates for the guidance of patients, in English and German, accompany every box.

OPINIONS OF THE PRESS.

The Western Literary Messenger, of Buffalo, edited by J. Clement, Esq., commences its twentieth volume with the March number, which is now before us, bearing the marks of much improvement in its general appearance. We are glad to see these evidences of prosperity in the Messenger, and congratulate our esteemed friend and correspondent, its editor, upon this auspicious commencement of a new volume. —*N. Y. Recorder.*

The Western Literary Messenger for March, comes to us in a new dress, making it now one of the handsomest, as it has long been one of the best monthly magazines in the country.—*Concord, N. H., Dem.*

It will compare with the best literary monthlies published in Philadelphia and New York, for the interest and instruction of its pages, and at half their price.—*Utica Register.*

We do not hesitate to say, that the Western Literary Messenger is at the head of American magazines.—*Aurora, (Ill.) Guardian.*

Waukegan, Kenosha, Racine, Milwaukee, and Sheboygan, *via* Toledo,

TOUCHING AT CLEVELAND.

Passengers, if they have any regard for their own comfort, will take this line of Boats to Cleveland and Toledo, in preference to taking the cars, and thus subjecting themselves to so many changes and detentions.

The following magnificent and unequaled Steamers form the connection in the Line between Buffalo and Toledo:

EMPIRE STATE.....Capt. J. WILSON.
Leaves Buffalo Mondays and Thursdays — Leaves Toledo Wednesdays and Saturdays.

NORTHERN INDIANA.....Capt. I. T. PHEATT.
Leaves Buffalo Tuesdays and Fridays — Leaves Toledo Mondays and Thursdays.

SOUTHERN MICHIGAN.....Capt. A. D. PERKINS.
Leaves Buffalo Wednesdays and Saturdays — Leaves Toledo Tuesdays and Fridays.

No expense has been spared in the constructing and fitting up of the above Steamers. Their engines are of large power and low pressure. Each boat is abundantly supplied with Life Boats, Life Spars, and Life Preservers.

One of the above splendid Boats will leave the M. S. R. R. Dock, (foot of Commercial Street,) every evening, (Sundays excepted,) at 9½ o'clock, or as soon after the arrival of the Express Train from New York, as will allow the Mail to be changed and Baggage selected and taken to the Boats.

Passengers can have their Baggage taken to the Boats FREE, by delivering their check to the Baggage Agents of the Line, who will always be waiting at the Cars.

The distance saved by this Line over any other route is between 60 and 70 miles.

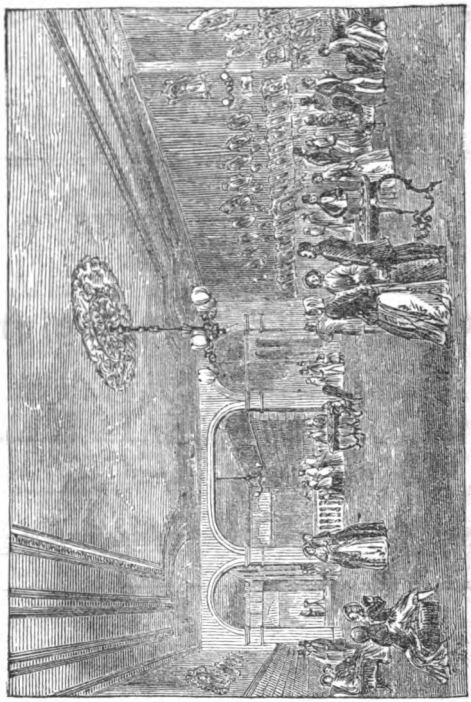
BRADY'S

New and Extensive

DAGUERREAN ESTABLISHMENT

No. 359 Broadway, over Thompson's Saloon,

BRADY'S DAGUERREAN GALLERY,



Nos. 359 and 205 Broadway, New York.

Is recently completed, and the public are invited to view the many improvements combined in this magnificent gallery. The proprietor has no hesitation in claiming advantages possessed by no similar establishment either in this country or in Europe. The facilities for the production of first class pictures are unrivaled. An additional building has been erected by which the Reception Saloon, Ladies Dressing Room and Operating Rooms are on the same floor, thus forming a new and most desirable arrangement. This Gallery, in connection with the old Gallery corner Fulton St. and Broadway, contains a matchless collection of Daguerreotypes of American and European celebrities, unequaled on this continent. In addition to various medals received in New York for the best Daguerreotypes, a medal was awarded at the World's Fair in London, 1851.

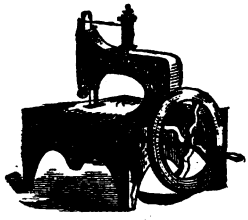
SEWING MACHINES

PATENTED

February 11th, 1851. June 22d, 1852. February 22d, 1853.



This machine is more simple and durable in its mechanism, less liable to get out of repair, and better adapted for doing with the greatest speed and certainty, all varieties of sewing in cloth and leather, and in straight, curved, or irregular seams than any other.

ANY KIND OF THREAD MAY BE USED,

and the same machine can be used at pleasure upon cloth or leather. The stitch is wholly UNLIKE ANY OTHER. It is formed by two needles supplied with thread from stationary spools of any size desired. Only one of the needles pierces the fabric sewed, and the threads are securely TIED TOGETHER and FASTENED AT EACH STITCH, forming a seam, which *will not rip*, far stronger, more elastic and beautiful than any other. This is the ONLY MACHINE which makes a fair stitch with two needles supplied from spools. Our patents are upon the stitch itself, and all practicable modes of making it.

All parties making, using, or vending machines, sewing from spools with two needles, ONLY ONE OF WHICH PIERCES THE FABRIC SEWED, or which make a FAIR STITCH WITH TWO NEEDLES SEWING FROM SPOOLS, infringe directly our patents, and will be dealt with accordingly.

We manufacture many sizes and varieties of machines adapted to the different wants of community.

Prices of single Machines, including Treadle Power and right to use, from $60 to $150, according to size and style.

Each machine is warranted, threaded for use, and securely boxed for transportation to any distance, accompanied with full directions for using. Pamphlets containing drawings, descriptions, and prices of each machine, with NUMEROUS TESTIMONIALS FROM PARTIES USING THEM, sent to all who desire.

Exclusive Rights for sale upon liberal terms.

LYON'S MAGNETIC POWDER.

A Medal from the World's Fair.

It will be seen by the following letter from the President of the United States, to E. Lyon, that the Royal Commissioners of the World's Fair, held in London in 1851, have awarded him a medal, &c., for his specimens of Magnetic Powder, for the destruction of insects. The experiments made with his powder, in the Crystal Palace, excited the astonishment of all who witnessed, and it has ever since been a popular article in Great Britain. The original of the subjoined communication may be seen at the Central Depot for LYON'S MAGNETIC POWDER AND PILLS, for the destruction of insects and vermin, No. 424 Broadway.

(Copy.) EXECUTIVE MANSION, Washington, Jan. 31, 1853.

To E. Lyon, No. 424 Broadway, New York: SIR: I have the pleasure to inform you, that a Jury of the Royal Commissioners connected with the Exhibition of the Works of all Nations at London, in the year 1851, in consideration of your having exhibited "specimens of Magnetic Powder for the destruction of insects," has awarded you a Medal, Certificate, and a Copy of the Report of the Juries.

These articles are in the possession of Col. Peter Force, of this city, Chairman of the American Executive Committee, and will be forwarded to you by such mode of conveyance as you shall suggest. Very respectfully, your obedient servant,

(Signed) MILLARD FILLMORE, Chairman of the Central Committee, U. S.
PETER FORCE, Chairman of the Executive Committee.

NEW YORK, October 5, 1850.—I have made a chemical examination of the *Vegetable Powders*, prepared by Mr. Emanuel Lyon, for the purpose of destroying insects. I do not find it to contain anything deleterious to health, and what might be considered poisonous to the human species; but it is very destructive to insects whenever they are forced to inhale the fine particles or dust occasioned by throwing the powder forcibly in places where they frequent. JAMES R. CHILTON, M. D. Chemist.

NEW YORK HOSPITAL, June 1850.—I have analyzed Emanuel Lyon's Magnetic Powder, for the destruction of insects, and certify that it is entirely free from mineral or other corrosive poison. As the result of my examination, I would say that it is a combination of various vegetable substances having a peculiar influence on the insect kingdom, and that it may be used with perfect safety. In reference to its utility, its effects are astonishing. I believe it to be a skillfully prepared substance by which a valuable result is obtained, which does effect what Mr. Lyon says, and is well deserving of public patronage. LAWRENCE REID, Professor of Chemistry.

These articles received the PREMIUM at the Fair of the American Institute in 1848 and 1850. None are genuine unless signed by,

EMANUEL LYON, 424 Broadway.
